Election District Map

Note: Effective March 22, 2002, various counties were reassigned from one Court of Appeals district to another. See MCL 600 302. The map on this page reflects the counties from which each district's judges are elected. This map does not necessarily reflect the district offices in which appeals files are stored. To facilitate long-standing, geographically close, access to public case files, the Court continues to maintain all files (pending and new) in the district office to which the originating counties were assigned before March 22, 2002.
